

"As a licensed and highly experienced Medical Doctor (MD) I've consulted well over 150,000 patients in my career. I've observed the critical role that diet plays in health, wellness & recovery. I'm not some formulator touting the latest fads in wellness, or some guru blindly promoting the wild and unrestrained use of nutritional products without evidence of therapeutic benefit. My clinical experience in countless inpatient and outpatient healthcare scenarios has demonstrated that the application of specific combinations of diet, vitamins, minerals, superfoods and select phytonutrients can result in synergistic enhancements, where the whole is far greater than the sum of its parts. Every formula I have is born out of my considerable clinical nutrition research, observation, testing & experience in a healthcare setting. Boston C™ was the cornerstone of my clinical practice in the Philippines for over 16 years. It contains 84 vitamins and minerals in concentrations that I find ideal for supporting optimal health. I hope you enjoy it." ¹

Dr. Farnah
