Product Information: Potassium Iodide should only be taken in emergency situations when directed by your physician, state, or local health authorities. A larger amount of potassium iodide does not create an extra benefit so only take the recommended dose for the period of time suggested by local or state health officials.

Suggested Use: For adults over the age of 18, take 130mg (2 tablets) per day. Individuals who are 12-18 years old and over 150lbs should take 130mg (2 tablets). Individuals who are under 18 years old and under 150lbs should take 65mg (1 tablet). Individuals under 12 years old regardless of weight should take 65mg (1 tablet). For short term use only, do not take for longer than 2 weeks unless directly by your physician, state, or local health officials.

Storage: Store in a cool, dark place after opening. Do not freeze or expose to moisture or heat above room temperature.
