

RnA ReSet® formulas set a standard for a new way of approaching nutrient-based protocols. We recognize that soil depletion and processed foods actually deplete the body of essential nutrients. Today's consumer requires **Complete Formulas** that meet nature's exacting standards for function and absorption.\* We also rely on the intelligent design of our body's biological systems and trust that when the appropriate nutrient building blocks are provided, the body will respond as it is able to support the structure and function of cells, tissues, bones, and/or organs appropriately.\*

- **Essential mineral for electrolyte balance\***
- **Positively charged stabilized ions of potassium**
- **Picometer size for full absorption\***
- **Can be taken daily as directed**

Supplement**

## Supplement Facts

Serving size: 1/4 teaspoon (1.25ml)

Servings per container: 192

|                                        | Amount per serving | % Daily Value |
|----------------------------------------|--------------------|---------------|
| Potassium<br>(from Potassium Chloride) | 99mg               | 2%            |

**Other Ingredients:** Reverse Osmosis Water, Citric Acid (as a preservative), Potassium Sorbate (as a preservative).

Manufactured for & Distributed by:  
New Capstone, Inc.  
178 Cayuga Drive, Mooresville, NC 28117  
1-888-577-3703

**Directions:** Do not take undiluted. Place 1/4 teaspoon (1.25ml) serving in 4 oz of water and consume in one sitting or put into 1 liter (33.8 oz) of water and drink throughout the day. For optimum results, up to two (1/4 teaspoon) servings may be consumed daily in the same manner or as directed by your health care provider. Shake well before use. May be taken with or without food. Due to high concentration, natural crystallization can occur. This does not affect the quality of the product.

Made in the USA with foreign and domestic components.

**This is a Completement Formula®**
