

RnA ReSet® formulas set a standard for a new way of approaching nutrient-based protocols. We recognize that soil depletion and processed foods actually deplete the body of essential nutrients. Today's consumer requires **Complete Formulas** that meet nature's exacting standards for function and absorption.* We also rely on the intelligent design of our body's biological systems and trust that when the appropriate nutrient building blocks are provided, the body will respond as it is able to support the structure and function of cells, tissues, bones, and/or organs appropriately.*

- Essential daily vitamin
- 2,000 mgs Vitamin C [ascorbic acid] powder
- 400 mgs potassium for additional support*
- Can be taken daily as directed
