

Highly Bioavailable

NutriBiotic® Ascorbate Bio-C delivers 100% pharmaceutical grade vitamin C (L-ascorbic acid), bioflavonoids from lemon, and an array of highly bioavailable minerals in an effervescent powder. When added to liquid, the vitamin C and minerals react to create carbonation (effervescence) to form mineral ascorbates that buffer the acidity of vitamin C.

Vitamin C, an essential nutrient, provides antioxidant protection to the immune system, as well as maintains the health of blood vessels, tissue, cartilage, bones, eyes, and other organ systems.* Vitamin C is also required for the biosynthesis of collagen, L-carnitine, and neurotransmitters.* Vitamin C is often found in nature accompanied by bioflavonoids, a group of water-soluble plant pigments that work synergistically with

vitamin C to help support the body.* The combined positive effects of vitamin C, bioflavonoids, and minerals make Ascorbate Bio-C an excellent choice for supporting your body's overall health.

Suggested Use: As a dietary supplement, mix 1/2 teaspoon into a glass of juice or water. Take with or without meals.
