

GOLIATH®
VANILLA

VANILLA

100% REAL FOOD . . . NO GIMMICKS,
NO FILLERS, NO HYPE.

Syntrex® products contain only nutritious, wholesome ingredients that optimize muscle growth and whole-body recovery. Rejecting all gimmicks, we created Goliath® to include no fillers, such as added taurine, glycine or creatine which falsely increase the amount of stated protein. Every serving of Goliath® provides real calories, superior proteins and clean carbohydrates, guaranteeing a formula that promotes optimal weight gain. With Syntrex®, you always receive integrity, quality and expected results.

Udenatured Whey Protein

GOLIATH®
VANILLA

GO·LI·ATH (gə-'lī-əth), *n*:

1. A large, powerful person, etc.
2. A delicious, high-quality, calorie-dense protein gainer created by Syntrex®.
3. What a normal person transforms into after consuming the protein gainer named Goliath® by Syntrex®.

syntrex®
GOLIATH®
PROTEIN GAINER
VANILLA

Syntrex® created Goliath® in response to the cry for a superior quality protein gainer at the best possible price. Instead of sugars, fats and low-quality proteins, Goliath® predominantly contains complex carbohydrates and a mixture of the best proteins on the market. Goliath® mixes instantly with a spoon, tastes great and features a simple but powerful formula, maximized for promoting muscle growth and recovery. This combination produces a foundation for a protein gainer that towers above the rest.

Recognizing that protein is imperative for not only basic health, but also for muscle growth and recovery, we formulated Goliath® with a matrix of different proteins to ensure maximum gains in the shortest time possible. Whey protein is a fast-metabolized protein considered to be the gold standard for supporting the body's anabolic and immune processes. On the other hand, micellar casein is a slow-metabolized protein that enhances satiety and delivers a steady stream of amino acids to vital muscle tissue.

Unlike other meal replacements and gainers that rely heavily on fats to increase caloric density, Goliath® contains the least amount of fat possible. Including no simple sugars, Goliath® utilizes only long-chain carbohydrates derived from nutritious starches. These complex carbohydrates supply the foundational calories that a person requires for increased lean body mass and whole body recovery. Even though this approach costs more, it is a small price to pay for better health and better results.

As with all Syntrex® products, Goliath® includes scrumptious flavors with a velvety smooth texture designed to make a protein gainer pleasurable to drink. All flavors of Goliath® feature a delicious, creamy taste and dissolve instantly whether mixing with a spoon or shaker cup. With Goliath®, you will enjoy each and every sip without the usual clumps that plague other gainers in the industry.

Syntrex® has engineered a product that causes other gainers to tremble in the shadows . . . a true Goliath amongst the ordinary.
