

GLUTAPLEX brings you the next evolution of recovery supplement technology. It's no secret that glutamine is the most abundant amino acid in skeletal muscle, and research shows that glutamine levels in the body are depleted as much as 50% after intense exercise. Glutamine is the single most important amino acid used in cellular and muscular repair and protein synthesis. However, not all glutamine supplements are created equal. **GLUTAPLEX** utilizes a 3-phase recovery matrix, targeting all facets of cellular and muscular repair. **GLUTAPLEX** is loaded with glutamine peptides and Magnesium Glycyl Glutamine™, proven to be absorbed 5x better than "free-form" L-glutamine. In addition, **GLUTAPLEX** has added a 2:1:1 ratio of Ajinomoto™ Instantized Branch Chain Amino Acids, unanimously agreed as the highest-quality BCAA produced in the world. As if that wasn't enough, **GLUTAPLEX** is fortified with a combination of electrolytes for immediate replenishment and Astragalus to support healthy immune function. **GLUTAPLEX** truly lives up to the billing as the only truly complete repair/recovery product on the market today!

Suggested Use: Mix 1-2 scoops with a protein drink or favorite liquid 1-2 times daily.

ADD TO THIS IF SO DESIRED.

Double sealed for your protection. Do not use if inner or outer seal is damaged or missing. To preserve quality and freshness keep bottle tightly closed, & store in a cool, dry place.

Warnings: KEEP OUT OF REACH OF CHILDREN. Always consult a physician prior to using any dietary supplement. Do not use or combine with other dietary supplements.
