## WHY COLLAGEN PEPTIDES?

**Supports Bone & Joint Health\***

**Enhances Skin, Hair & Nails\***

**Builds Muscle & Fitness\***

**Promotes a Healthy Immune System\***

**Supports Balanced Diet\***

**Fast Absorption Rate\***

### PREMIUM COLLAGEN PEPTIDES

As the most abundant protein in our bodies, collagen plays an essential role in muscles, bones, skin, hair, blood vessels, immune & digestive systems. Our body produces collagen everyday, however, aging slows down the natural collagen production in our body. ZAMMEX collagen peptides are derived from collagen protein. By going through an enzymatic hydrolysis process, the collagen becomes short chain amino acids, which greatly increases its bio-availability. Taking collagen as a supplement will help improve the health of skin, hair, bone and joints. It will also boost our body's metabolism, muscle mass and energy output.
