

Cal/Mag/Zinc is a dietary supplement with ConcenTrace®. Its complementary blend of premium forms of Calcium, Magnesium and Zinc help to ensure the highest assimilation and balance of these minerals in the body. We've also included Vitamin D to create a formula that provides complete nutrition to sustain bone, muscle, and connective tissue health.*

Suggested Use: 1 to 2 tablespoons daily (one capful = 2 tablespoons), to top off or fully supplement your diet. As this is a highly concentrated product, we recommend starting with 1 tablespoon and increase as needed, ideally spread throughout the day. We also recommend taking this product mixed into or with a large glass of liquid for the best isotonic balance. Excess Magnesium may cause a laxative effect. Shake well prior to taking this product.

REFRIGERATE AFTER OPENING.

ConcenTrace® is a trade name for concentrated sea minerals from the Great Salt Lake.
