

“Reactivate” Your Muscles and Get Your Physique Back!*

Like millions of other men over 40, you may be experiencing loss of muscle mass and declining strength and athletic performance. As you age, your muscles are exposed to “anabolic resistance” and excess catabolism. As a result, your muscles fail to respond to exercise and nutrition like they used to. It’s as if your muscles have gone dormant. What you are experiencing is sarcopenia (age-associated muscle loss) and it’s breaking you down and making you weak.*

AMIDREN BUILDER can help reactivate your muscles so they respond more like they did in your prime. Formulated by Dr. Vincent Giampapa, M.D., and the researchers at Sera-Pharma Labs, AMIDREN BUILDER contains powerful nutraceutical compounds to help reduce anabolic resistance and excess catabolism. AMIDREN BUILDER is specially formulated to help men over 40 combat sarcopenia and restore lean muscle, strength and performance when used in conjunction with proper nutrition and exercise.*
