Our promise to you...

At Biopharma Scientific, we've perfected the balance of superior science with the most nutrient rich Superfoods Mother Nature has to offer.

Through our patented Supersorb Technology™ delivery system, we ensure you get maximum absorption of the nutrients your body needs.

We guarantee the best tasting products with the highest purity, potency, and quality. Because your health is our business.

All natural nanolean® is a light, refreshing beverage that you drink in between your meals, right when you feel the "crash" coming on. nanolean® is designed to give you support no matter what your goals are. It helps keep your energy up, cravings down, metabolism on high, keeps you full, feeling happy and stress free. Also serves as a healthy energy drink.**

nanolean® is designed to be a multi-faceted support tool to use in-between your meals to help keep you feeling full, curb cravings, increase metabolism and energy, and control stress. It is also clinically proven to reduce body fat when used twice a day (See svetol® information below). We like to call it the "secret weapon" that can be used with any weight loss or maintenance plan to help keep you successful. **

Svetol®

Green Coffee Bean extract works by limiting the release of glucose sugar in our bodies' circulation. This encourages the release of Triglycerides (body fat is almost entirely made up of Triglycerides) from our adipose tissue. Triglycerides come from the food we eat, mainly fatty foods or fat which is made in the body from carbohydrates. When the Triglycerides are broken down and released from our adipose tissue, they supply the energy necessary for our bodies to function correctly, resulting in a decrease of body fat.† Svetol® is a registered trademark of Naturex Inc. **

Sensoril®

Ashwagandha is a revered adaptogenic botanical from India that has been used for centuries. This particular multi-patented ashwagandha extract has been evaluated in a randomized, double-blind, placebo-controlled human clinical trial, which is the gold standard for scientifically validating efficacy. Sensoril® is clinically proven to reduce levels of cortisol, the stress hormone. Because stress and elevated cortisol levels are associated with stress related appetite and weight gain, Sensoril® helps contribute to a naturally less-stressed and slimmer you. †† **

Green Tea Extract (optimal absorption)

Green Tea is rich in EGCG. EGCG is the most powerful of the four major compounds in green tea that increase metabolism. 135 mg per packet have been added to this energizing formula to maximize metabolism support††† & increase fat burning†††† while providing you with powerful, rejuvenating antioxidants! A combination of 90 mg of EGCG and 50 mg of Caffeine 3 times daily have shown metabolism boosting effects in clinical studies. **

Dietary Fiber

Fiber is another ingredient found in nanolean® and is lacking in the majority of people's diets today. While the average American consumes approximately 12 grams per day, the recommended daily values are 25 grams. While fiber has numerous benefits, it contributes to satiety, a feeling of fullness. The fiber in nanolean® comes from an all natural source of non-GMO corn. 1 serving of nanolean® provides 5 grams of fiber and is considered to be an excellent source of fiber. **

Vitamins and Mineral Blend

nanolean® is further supported by Vitamin C, a Vitamin B complex and Chromium†††††, an essential mineral needed for optimal metabolism. Chromium helps promote healthy body weight as well as normal blood sugar. **

† Svetol®- an 8-week double blind clinical study against placebo, showed subjects experienced overall weight loss and an increase in the lean to fat mass ratio. - Dellalibera et al. Phytotherapie, France 2006

†† In a double-blind, placebo-controlled human clinical trial mentioned previously, Sensoril® treatment resulted in a 24.2% reduction in serum cortisol levels for subjects taking it at the recommended dosage of 250 mg/day - Bruce Abedon, PhD, Director of Scientific Affairs NutraGenesis LLC, Brattleboro, Vermont 2008

††† A combination of 90 mg of EGCG and 50 mg of Caffeine 3 times daily have shown metabolism boosting effects in clinical studies. - A.G. Dulloo, American Journal of Clinical Nutrition, Dec. 1999

†††† Efficacy of a green tea extract rich in catechin polyphenols and caffeine in increasing 24-h energy expenditure and fat oxidation in humans. -Dulloo AG, Duret C, Rohrer D, Girardier L, Mensi N, Fathi M, et al. Am J Clin Nutr

Instructions to Support a Weight Management Plan: Simply mix 1 packet with 16 oz. of cold water, shake, and enjoy. Drink 2 servings per day, one mid-morning and one mid-afternoon at least 30 minutes before each meal for optimal weight loss results. This will encourage the stomach to feel full more quickly and help you to eat less! If you are sensitive to caffeine, the second serving can be taken easier in the afternoon.

WARNING: KEEP OUT OF REACH OF CHILDREN. Do not use if you are pregnant or nursing. Not intended for use by persons under 18. Anyone taking prescription medications, or prior to any surgical procedures, inform their physician and/or pharmacist before starting any weight loss program. One serving of this product contains the amount of caffeine equivalent to 1 cup of coffee. Do not take nanolean® if you are sensitive to caffeine or have a health condition that is aggravated by caffeine.

Manufactured in the U.S.A. at a cGMP
and FDA registered processing facility.
