

Suggested Use: Mix 1 scoop daily in 6-8 ounces of room temperature water or juice and mix well (for best results, mix in a blender bottle). Drink on an empty stomach at least 1 hour before or 2 hours after meals. Best when taken as directed by a qualified healthcare professional.

Note: 5 grams per scoop is an average. Individual scooping technique may yield slightly less than or slightly more than 5 grams.

Collagen is the primary structural protein found in joints, bones, skin, nails, and other connective tissues. It is responsible for maintaining the strength and elasticity/flexibility of these tissues found throughout the body.

Our wild-caught marine collagen is made from the skin of deep sea, cold water species and is enzymatically hydrolyzed (broken down) into amino acid peptides in order to assist with absorption and bioavailability. Taken as a dietary supplement, regular consumption of the collagen peptides may provide the fundamental building blocks to help support healthy hair, skin, nails, joints & bones.*

Warnings: Keep out of reach of children. Consult with a licensed physician, pharmacist, naturopath or other qualified healthcare professional prior to taking dietary supplements.

Sealed for your protection. Do not use if seal is missing or broken. Store in a cool, dry place. Protect from heat, light, and moisture.

Aroma, color, consistency, and taste may vary.
