

GREAT DUO: Known as the "sunshine vitamin," Vitamin D3 helps maintain strong bones by helping you metabolize calcium and supports a healthy immune system. Vitamin K2 helps ensure calcium gets deposited in your bones where it's needed and protects arteries from calcification.

Vitamins D3 & K2 work better and are more efficient when taken together.

PERFECT FOR ALL YEAR: Our Vitamin D3 and K2 supplements are made with Vegan capsules made from plant cellulose, Vitamin D3 from cholecalciferol, and MenaQ7, a patented form of Vitamin K2. Our easy-to-swallow Vitamin D3 & K2 are an easy way to add these two essential micronutrients to your diet.
