‡ Based on preliminary experimental research.

^ MRI® NO2 RED TEST™ contains clinically tested Green Tea Extract, which has been shown to help improve body composition. This product is to be used in conjunction with a healthy diet and exercise regimen. The degree of improvement varies by individual and is related to your diet, exercise, daily activities, age and body frame.

ð A double-blind, randomized, placebo-controlled trial found that Testofen supplementation significantly increased Free Testosterone production by 98%, which was more than double of placebo.
