

Support Healthy Collagen and Skin Health†

Collagen, a protein that connects and supports bodily tissue, is an essential structural component of the skin. Collagen production declines with age, thus contributing to wrinkling, sagging and discoloration of the skin. Our **Regenerage** supplement contains 3 types of collagen peptides (I, II & III), which are the most abundant forms in the human body and essential for healthy skin.

Chondroitin sulfate is an important structural component of skin supporting elasticity, strength and moisture.† **Hyaluronic acid** is another major component of healthy soft tissues and shown to support replenishment of moisture.† Our **Health and Beauty Blend** contains plant-based botanical extracts to support healthy skin and free radical damage.† **Vitamin C** has protective properties and plays an integral role in collagen synthesis for skin health.†

CONTAINS NO artificial colors, flavors or preservatives; no wheat, gluten, milk, eggs, peanuts, tree nuts, soy, crustacean shellfish or fish.

Store in a cool, dry place.

We Guarantee Our Supplements for Potency and Purity
