

## Vitamins D3 & K2 to Support Immune, Cardiovascular and Bone Health†

Both fat-soluble vitamins D and K play a central role in calcium metabolism and support bone and cardiovascular health.† Vitamin D3 is essential for brain, bone, teeth, cardiovascular health and more.† Vitamin K2 is the most biologically active type of vitamin K for bone health.† Our K2 is provided in the superior MK-7 form, which has been well-studied and shown to have the highest vitamin K activity.† The combination of D3 & K2 in our product is designed to support bone, immune, heart health and more, making it an ideal addition to your supplement routine.†

**CONTAINS NO** artificial colors, flavors or preservatives; no wheat, gluten, milk, eggs, peanuts, sesame, tree nuts, soy, crustacean shellfish or fish.
