## GOJI BERRY EXTRACT POWDER

The Goji Berry (*Lycium barbarum*) has been used for over 2,000 years. Native to southeastern Europe and Asia, the extract is derived from the ripe, bright-red berry. Goji berries contain a unique combination of phytochemicals, not commonly found in other fruits. As a result, Goji Berry Extract Powder has become a popular choice, used in teas, juices, and smoothies.

### Suggested Use:

Mix 1 teaspoon (2.8 g) with juice, yogurt or add to your favorite smoothie.
