YOUR "SECOND" BRAIN

Science has discovered a second brain hidden in the walls of your digestive system. Your "second brain" links digestion, mood, immune health, and even behavior. Science calls this little brain the enteric nervous system (ENS). The "second brain" is two layers of more than 100 million nerve cells lining your gut and it sends signals to your big brain, or central nervous system (CNS). For people experiencing gut issues, this can trigger emotional & physical health shifts. Together, our "two brains" play a key role in overall health and well-being. Trust your gut, and go with GB6 for advanced gut-brain health.

LAB-CERTIFIED 6-HOUR COLOSTRUM

Bovine colostrum provides a wide variety of nutrients, immunoglobulins, passive antibodies, and peptides that support healthy tissue in the gut lining.

MARINE ALGAE SUPERFOOD

85% pure fucoidan from the pristine Blue Zone waters of Okinawa, Japan increases the abundance of the beneficial bacteria lactobacillus and promotes healthy mucosal layers of the G.I. tract.

PLANT-BASED FIBER

Beta-glucan is a plant-based fiber that feeds the good bacteria in your gut and helps balance your gut microbiome.

GUT RESTORATIVE PEPTIDES

PRP (Proline-Rich Polypeptides) supports peptide building blocks in the G.I. tract, calms the gut, and supports brain health.

ADVANCED PRE, PRO, & POST-BIOTIC BLEND

Our proprietary formula is a rare multi-biotic blend that promotes microbiome diversity with beneficial bacteria to help maintain gut barrier integrity.
