RESVERATROL 100

with
Green Tea 100
Grape Seed 100
Pomegranate 100

Four of Nature's Richest and
Most Powerful Sources of Protection

Dietary Supplement | **360** Easy-to-Swallow Capsules

RESVERATROL with GREEN TEA, GRAPE SEED and POMEGRANATE EXTRACTS provides a unique, high potency blend of four of nature's most well-researched and respected sources of protective compounds. For centuries, resveratrol and green tea have been recognized as central to the healthy Mediterranean and Asian diets and today, clinical research has validated their protective anti-aging benefits. Grape seed is known for its exceptional levels of protective polyphenols, particularly OPCs (Oligomeric Proanthocyanidins). Pomegranate is a centuries old traditional remedy often referred to as "sacred fruit." Scientists have identified the molecules behind its protective benefits and, unlike Pomegranate juice or typical supplements, our unique extract ensures the delivery of these vital compounds. It has only been in recent years that specialized extracts have made it possible to create this small capsule that contains exceptional levels of resveratrol, along with the most important natural protective molecules from green tea, grape seed and pomegranate. Best of all, we do so without any alcohol, caffeine, sugar, calories or additives of any kind.
