ULTIMATE WOMEN'S WELLNESS™

Natural Hormone Balance

Natural Relief for Symptoms of Menopause, Perimenopause and PMS

ULTIMATE WOMEN'S WELLNESS is our most comprehensive formula to support the needs of women at all stages of life. It contains our highest levels of the key beneficial isoflavones from soy. Research has shown that these natural isoflavones can help diminish the normal symptoms of menopause. Soy isoflavones have also been consistently shown to support bone and heart health. For centuries, soy has been a staple food in the healthy Asian diet and **Ultimate Women's Wellness** is designed to provide the same balance of isoflavones present in the healthy Asian diet. We also include 400 IU of vitamin D3 and 100 mg of calcium because of their critical roles in women's health, along with our special extract of green tea, which is standardized to provide 125 mg of EGCG. We also include 75 mg of our broccoli extract standardized for high levels of sulforaphane. Additionally, we add 75 mg of indole-3-carbinol, also found in healthy cruciferous vegetables, which has been shown to support normal estrogen activity and metabolism in breast tissue. We also include 250 mg of our special cranberry concentrate, providing powerful support to a woman's urinary tract. Also included are lutein, lycopene and zeaxanthin, because these powerful antioxidants are so important to the health of female tissues, while also lacking from our diet and most supplements. We also include the world's most sophisticated high-potency B-complex formula, including our absorption-protected natural B12 (methylcobalamin). All of these specialized ingredients make **Ultimate Women's Wellness** our most comprehensive choice for hormonal balance and wellness throughout all stages of life.
