CATALO Baby's Algae Omega-3 Drops

Cultivating children's IQ (Intelligence Quotient) and EQ (Emotional Quotient) after birth is a critical foundation to their future rapid development. Children start their school life and social activities at age 3, emotion stability is essential to them. This product is made exclusively from *life's™OMEGA* vegetarian algae oil, with the ratio of **DHA 2:1 EPA**, providing not only sufficient DHA for higher IQ, but also sufficient EPA for higher EQ.*

Main Functions:

- Help to maintain stable emotion of children and higher EQ*
- Support healthy nervous system, cognitive development and higher IQ
- Build up a basis on future's brain and visual development

Suitable for: Concerned about children's emotional quotient (EQ), concentration, patience and self-discipline, breastfed infants
