## Roasted Dandelion Root

**Bitter is the better way** to get your digestive juices flowing, improving your body's digestive process.\* Some of our best and bitter (in a good way) dandelion roots are **sustainably harvested from the wild meadows** of Poland and Bosnia. Dug up, separated from the stems, leaves and flowers, washed and dried, the **roots are then roasted** whole before being cut up to be used in this tea.

### *We've Got the Right Stuff*

We raise the bar. The quality standard of the herbs we use is hard to pronounce, difficult to meet, and it's what makes us different, better. We're not ashamed to say it. **Pharmacopoeial:** it's the only quality standard our herbalists can rely on when blending teas for your health and wellness.
