

DIRECTIONS: Mix 2 scoops (52 g) in 8 - 12 oz. cold water. Adjust amount of water according to thickness desired.

XYMOGEN®'s innovative FIT Food™ (Functional Integrated Therapeutics) program is now better than ever with new FIT Food™ LITE Whey, containing 40% less sugar! FIT Food LITE Whey represents an extraordinary breakthrough in body composition/weight management Functional Food formulas.

Our Medical Board of Advisors' primary objective in researching and developing FIT Food LITE Whey was to find a pure source of quality whey protein that is free of genetically-engineered hormones [rBST & rBGH] which, though banned in other countries, are used in the U.S. dairy industry. There are growing concerns regarding the effects of these hormones including early puberty in children.

After a thorough review, our researchers determined that the stringent standards imposed by the New Zealand Ministry of Agriculture & Fisheries (MAF) upon New Zealand dairy farmers results in the purest and most bioactive whey protein in the world. In addition to prohibiting the use of synthetic hormones in New Zealand's dairy industry, MAF-mandated feeding, climate, and calf-birthing practices further contribute to the superior quality of New Zealand's whey protein. Although importing New Zealand whey protein into the U.S. is more costly, XYMOGEN's Board of Advisors recommended that FIT Food LITE Whey must contain 100% pure New Zealand whey protein.

FIT Food LITE Whey promotes fat burning and improved lean body mass with the following enhancement:*

	FIT Food LITE Bioactive Whey	Soy-Based Formula	FIT Food LITE Superiority
Biological Value [BV]	104	74	40%
Protein Equivalency	21 Grams [one serving]	30 Grams [two servings]	The BV of bioactive whey is 40% greater than that of soy protein. As a result, 30 grams [two servings] of the soy formula would be required to equal the amino acid nourishment of just 21 grams [one serving] of FIT Food LITE Whey.
Source of Protein	Imported New Zealand	Domestic United States DuPont® Corporation	The N.Z. Ministry of Agriculture & Fisheries imposes the most stringent environmental requirements on New Zealand farmers.
Dietary Fiber	7 Grams	5 Grams	20%
MCT [Medium Chain Triglycerides]	2 Grams	0 Grams	Readily-utilizable Source of Energy and Essential Lipids.

The sale of FIT Food LITE Whey on the internet and in health food stores is prohibited. XYMOGEN formulas sold online or at health food stores are done so without authorization. XYMOGEN only guarantees its formulas when prescribed by a licensed healthcare practitioner and used under professional supervision.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

DOES NOT CONTAIN: Wheat, gluten, corn protein, yeast, soy, artificial colors, sweeteners, or preservatives.

This product Contains Ingredients Derived From Milk.

CAUTIONS: Consult your healthcare practitioner before use. Keep out of reach of children. Avoid if allergic to any ingredient.

STORAGE: Keep tightly closed in a cool, dry place.

Contents sold by weight, not volume. Some settling may occur during shipping and handling.
