p-Ca FROM Ultra-Green Propolis

Today we are exposed to more noise, pollution, and daily challenges than ever before, creating a potential overload that can threaten our wellness, mental alertness and happiness. Like the bees that protect their hives and health with their propolis, NaturaNectar's p-Ca from Ultra-Green Propolis supports healthy systems and cells all year round.*

P-Coumaric acid (p-Ca), along with other Brazilian ultra-green propolis polyphenols, is widely investigated by the scientific community. Results indicate positive immune supporting mechanisms that are crucial for the balanced lifestyle that today's consumers are in search of.*

NaturaNectar p-Ca from Ultra-Green Propolis comes in response to this need and to complement the already popular Brazilian Green

Bee Propolis in capsules. It focuses on p-Coumaric acid, one of the most important active compounds in this type of Brazilian propolis. Its unique formula, guaranteed origin and exclusive Green Extraction process yield purity, potency, and quality that are impossible to replicate. NaturaNectar p-Ca from Ultra-Green Propolis is **FREE of Alcohol, propylene glycol** and any other harsh-chemicals used by the majority of other lower quality propolis brands.
