

V-GUARD 2™ is a Designer Food™ formula created by research scientists, Durk Pearson & Sandy Shaw® to provide natural support for healthy immune function.*

This product contains **vitamin C** (reported to protect against excessive immune stimulation of inducible nitric oxide), **vitamin D** (levels of which are low in many people of all ages, but especially in the elderly and in those who stay completely out of the sun, or who use sunscreens), the flavonoid **quercetin** (found in vegetables and fruits, and especially in apples, cranberries, blueberries, and onions, as well as black tea, red wine, and various fruit juices), **green tea extract** (90% polyphenol, 50% of which is EGCG), **N-acetylcysteine** (which increases the amount of intracellular cysteine needed to maintain high levels of reduced glutathione), **resveratrol** [which has been shown to inhibit PKC (protein kinase C, an intracellular signaling molecule) activity and its dependant pathways], and **selenium**, a cofactor in glutathione peroxidase, a biologically powerful antioxidant.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

STORE IN A COOL,
DRY PLACE.

Safety sealed for your
protection. Return for
replacement if outer
seal is broken.
