Noel Turner
Founder and CEO

FREZZOR SUPER REDS is a powerful combination of over 20 superfood antioxidants. Scientists have discovered that specific red superfoods do indeed provide robust and distinct nutritional benefits, namely as rich sources of vitamins, minerals, phytonutrients and antioxidants.

Antioxidants constitute our first line of defense against free radical damage and are crucial for maintaining optimum health, the need for antioxidants becomes even more critical with increased exposure to free radicals from modern living. Made with top quality ingredients that are sourced from all-natural farms in the stunningly beautiful New Zealand countryside, FREZZOR Super Reds can help your body slow down the signs of aging, improve eye health, boost your immune system, and give you an all-natural energy lift.
