HERBAL SUPPLEMENT
8 FLUID OUNCES (236 mL)

Powerful Respiratory Support*

Rocky Mountain Throat Syrup™ is a powerful cough syrup that soothes and comforts throat tissues.* This formula promotes sinus, throat, bronchiole and lung health.*

Osha root, an important ingredient in this herbal medicine, has been used by generations of Southwestern Native Americans and Hispanics to support their respiratory health. We believe Osha root is the **must-have herb**, which is why we include it in our throat syrup.*

Our commitment to Osha root goes beyond our belief in its medicinal qualities. Herbs, Etc. works with plant preservationists to ensure the sustainability of this important botanical. Learn more about this ongoing project by visiting Herbs, Etc.'s Rocky Mountain Throat Syrup™ pages at herbsetc.com.

Herbal Medicines Made Right™

We apply our company philosophy to **Rocky Mountain Throat Syrup™**, as we do to all of our herbal medicines.

That philosophy is to do what's right, which extends to identifying and choosing the right herbs, using the right machines and processes and making the right liquid extracts.

We focus solely on providing you with the right active constituent-rich formulations that support your health needs.

Each herbal medicine is released only after it goes through rigorous quality control to ensure safety and satisfaction.

**We do all of this to bring you
herbal medicines made right™.**
