

HYDROLYZED COLLAGEN TYPE I & III

Pure Marine Collagen Peptide* capsules are naturally sourced from wild caught deep-sea Atlantic Cod. In addition, only the skins of kosher fish are used, not scales or bones. Hydrolyzed collagen type I & III supplies the body with 18 amino acid peptides, which are essential for healthy connective tissue within the extracellular matrix. For optimum results, we added naturally occurring rooster comb hyaluronic acid (HA) and organic vitamin C sourced from Indian Gooseberry. All 3 food grade ingredients support the collagen fibrils and biosynthesis that activates the fibroblast* cell membranes to produce healthy connective tissue throughout the body.*

WARNING: Keep out of the reach of children and consult with a physician before taking this product if you are pregnant, nursing or have a medical condition.
