D3 Vegan 1000 is a 100% vegan-suitable, plant-derived vitamin D3 formula. It provides cholecalciferol derived from a special organic lichen—a complex plant consisting of a fungus that grows symbiotically with algae. Vitamin D3 is the bioidentical form of vitamin D synthesized in the body from cholesterol following activation by the UV rays in sunlight. This form is excellent for maintaining healthy levels of vitamin D in the body.*
