

BlovaFlex® Clinically proven superior to Glucosamine Chondroitin. Natural ratios of joint nutrients found in egg membrane are retained and include these key elements.

- Collagen—fibrous protein critical to cartilage strength and elasticity.
- Elastin—a protein critical to skin, cardiovascular, cartilage, and spinal column health
- Desmosine and Isodesmosine—amino acids responsible for elastin's elastic or "rubbery" properties
- Glycosaminoglycans (GAGs) including: Glucosamine and Chondroitin—vital polysaccharides which serve as structural components of connective tissue, interstitial fluids, and skeletal structures

BCM-95® Clinically proven 6.93 fold bioavailability over Turmeric (curcumin)

BosPure® Highest concentration of active Acetyl-11-Keto- β -Boswellic Acid

Relieves Pain & Inflammation. Restores Functional Flexibility
Rapid Recovery & Regeneration. Supports Joint & Soft Tissue
