

Recovery Unleashed™ specially formulated for elite fighters and performance athletes requiring peak energy and endurance and to repair damage specific to high intensity training. Using **Kre-Alkalyn® Patented PH-Correct Creatine** which is 100% stable, will not breakdown into Creatinine, and will absorb efficiently into the bloodstream. Each 1 gram of Kre-Alkalyn is equivalent to ingesting 10 grams of Creatine. No more puffy bloating, painful cramps or the hassles of loading and cycling thanks to **pH-Correct™** technology! **Ajipure™ Instantized Branched-Chain Amino Acid** to help muscle recovery, Ajipure 3BCAA is the result of unique production technology allowing it to dissolve

more quickly in water, and become available in the body more rapidly. 100% non-animal-origin ingredients and 90-100% purity.

Beta-Alanine (CarnoSyn®) and Potassium Citrate for pH balance/endurance. Nitric Oxide optimizers to maintain peak performance. Essential anti-oxidants as well as blood sugar support. Perhaps the most important thing a recovery drink needs is great taste. **Fight Labs™** went the extra round using real fruit juice powders, without unnecessary sugars. "Fighter elite in the cage or on the street"
