

SUPERCHARGED CREATINE POWERHOUSE FORMULA

Cell-Tech® has proven so effective that it has stood the test of time and become the stuff of legends among hardgainers for its ability to pack on muscle mass, size and strength. Now, the original, category-defining performance creatine formula has set a new benchmark with Cell-Tech® Elite. This next-generation formula is engineered with the most researched form of creatine — and is now packed with even more essential musclebuilders, fewer carbs plus added electrolytes. It now features clinical doses of Sensoril® and PEAK ATP®, hand picked by MuscleTech® researchers to amplify your muscle growth potential, while boosting strength and speeding up recovery time between sets. It's simply the most powerful musclebuilding formula ever developed!▲

INCREASE STRENGTH & GAIN 90% MORE MUSCLE

This high-octane formula provides your muscles with a premium 5g dose of an HPLC-certified creatine blend, as monohydrate and HCl. Plus, it features a clinically validated 400mg dose of PEAK ATP®, which allows you to go heavier for more reps, leading to increases in strength.

▲In a clinical study, subjects using PEAK ATP® gained 8.8 lbs. of lean muscle vs. the placebo group, which only gained 4.6 lbs., in 12 weeks of intense training. Take your performance to the next level with greater volume and higher power output.▲

MULTI-STAGE CARBS & RECOVERY

Cell-Tech® Elite delivers a multi-stage combination of carbs that triggers an insulin spike post-workout, shuttling creatine straight into your muscles while rapidly replenishing glycogen stores, essential for muscle recovery.▲

COMBAT CORTISOL

Cell-Tech® Elite features a scientifically validated dose of Sensoril® Ashwagandha — a powerful adaptogen that has been clinically shown to combat cortisol levels. Cortisol is a catabolic hormone that can lead to muscle breakdown.▲

MUSCLEBUILDING BCAAs & EAAs

Each serving features 6g of essential amino acids, including the critical anabolic amino acid L-leucine, along with the other BCAAs L-valine and L-isoleucine, in a scientific 2:1:1 ratio to support muscle recovery and growth.▲

Supplement Facts

Serving Size: 1 Scoop (30g)
Servings Per Container: Approx. 20

Amount Per Serving		% DV
Calories	60	
Total Carbohydrate	15g	5%*
Total Sugars	13g	†
Includes Added Sugars	13g	26%*
Vitamin C (as ascorbic acid)	125mg	139%
Vitamin B6 (as pyridoxine hydrochloride)	5.3mg	312%
Vitamin B12 (as cyanocobalamin)	0.2mcg	8%
Calcium (as dicalcium phosphate)	30mg	2%
Magnesium (as magnesium oxide)	50mg	12%
Potassium	30mg	<1%
Sodium	65mg	3%

BCAA & EAA Amino Complex		
L-leucine	2g	†
L-isoleucine	1g	†
L-valine	1g	†
L-lysine (as lysine hydrochloride)	500mg	†
L-threonine	500mg	†
L-phenylalanine	500mg	†
L-methionine	250mg	†
L-histidine	250mg	†

Muscle & Strength Growth Matrix		
Creatine monohydrate	2.5g	†
Creatine hydrochloride (HCl)	2.5g	†
PEAK ATP® (adenosine 5'-triphosphate disodium)	400mg	†

Research-Backed Cortisol Control		
Sensoril® Ashwagandha extract (as <i>Withania somnifera</i>) (root and leaf)	125mg	†

Electrolyte Blend		
Sodium chloride	55mg	†
Dipotassium phosphate	55mg	†
