Total GUT HEALTH†

PROBIOTICS • HCL • ENZYMES

SUPPLEMENT PACKETS

Formulated to help support

HEALTHY GUT FLORA & OPTIMAL DIGESTION†

15 PACKETS

ESSENTIAL PREBIOTICS

Prebiotics are essential to help support the probiotic colonies inside your gut.† We included one of the best, Jerusalem artichoke, in our formula and complemented it with dandelion.†

FIVE STRAINS OF PROBIOTICS

Probiotic bacteria are responsible for not only helping digestion, but also for optimizing mood and supporting immune function.† We added five of the most important acid-resistant probiotic strains: *L. acidophilus* DDS-1, *L. plantarum, L. rhamnosus, B. infantis* and *B. lactis.*

SACCHAROMYCES BOULARDII

S. boulardii is a unique non-pathogenic, non-colonizing probiotic yeast that supports gastrointestinal health by promoting the production of secretory Immunoglobulin A.† With five billion colony-forming units per capsule** and its ability to survive stomach acid, this was an ingredient we just couldn't leave out.

DIGESTIVE ENZYMES

Our flagship proteolytic enzyme blend, DigesTech®, offers assistance with the digestion of all five major categories: fats, protein, dairy, fiber, and carbohydrates.†

BETAINE HCL

Hydrochloric acid is the stomach's innate way to assist with the breakdown of food. In combination with enzymes, our betaine HCl forms a potent 1-2 punch to support normal stomach acid function and to support digestion and nutrient absorption.†

SUGGESTED USE

Adults, as a dietary supplement, take one packet with your largest meal of the day. Consult a medical doctor before taking this or any other nutritional supplement if you are pregnant, nursing, have or suspect a medical condition or are taking any medications. Store in a cool, dry place.
KEEP OUT OF REACH OF CHILDREN.

UNIQUE FORMULA DESIGNED TO

+ BREAK DOWN FOOD & ABSORB NUTRIENTS†
+ SUPPORT THE IMMUNE SYSTEM†
+ HELP SUPPORT HEALTHY GUT FLORA†
+ DIGEST MAJOR MACRONUTRIENTS†

HEALTHY GUT BIOME

A gut biome of friendly probiotic bacteria is not only important for digestion, it is also where a great deal of our important nutrients are produced.† In addition, these all-important little allies are also responsible for maintaining a healthy immune system.† In order to support the gut biome, we included five acid-resistant strains of probiotics, along with S. boulardii and prebiotic food to feed our little buddies.†
