MINERAL DEPLETION[†]

DEPLETED SOILS – DEPLETED FOODS – POOR DIET

Adding ConcenTrace® to your daily supplement regimen adds minerals to your diet that are missing from soil and food to help maintain body mineral balance for optimum health![†]

LEARN MORE

AMERICA'S #1 SELLING TRACE MINERAL SUPPLEMENT!

ConcenTrace® Trace Mineral Drops is an all natural concentrated complex of full spectrum, naturally occurring ionic trace minerals that's made by using **ConcenFlo™**, our proprietary harvesting process.

Suggested Use: THIS PRODUCT IS HIGHLY CONCENTRATED WITH NO FLAVORING OR SWEETENERS. WE RECOMMEND MIXING IT WITH JUICE OR FOOD AND DIVIDING THE SERVING THROUGHOUT THE DAY TO MASK THE STRONG MINERAL FLAVOR. Begin regimen by taking 10 drops for 3 consecutive days. Each day thereafter, increase serving by 10 drops up to ½ teaspoon (40 drops) once or twice daily. A high intake of magnesium may cause a laxative effect. If this occurs, reduce serving amount. **Children age 1-3:** Take 1 drop for every 5 lbs of body weight. **For regular or sodium-restricted diets.**

Re-mineralize Purified Water: Add 20-40 drops per gallon or to taste (2-4 drops per glass). Minor crystallization may occur, but this does not affect the quality of the product.
