

America's #1 selling trace mineral brand!‡

Vitamin D3 + K2 gummies are a delicious pairing of two essential nutrients that each function more effectively in the presence of the other. When combined, these two highly bioavailable ingredients help support strong and healthy bones, heart health, and immunity.†

Suggested Use: For best results, chew 1 gummy up to 3 times daily with food or at mealtime to ensure the nutrients sit well on the stomach during digestion. Store in a cool, dry place, away from direct sunlight. Gummies may stick together in warmer climates, but this does not affect product potency, quality, or efficacy.
