Pioneering Electrolytes Since 1972

Strenuous physical activity, your body is depleted of electrolytes. Replenish your body with electrolytes to maintain energy, avoid sluggishness, and prevent dehydration.

Suggested Use: Adults and children age 4 and older chew 1-3 gummies daily to support efficient hydration especially before, during, and after exercise. Store in a cool, dry place, away from direct sunlight. Gummies may stick together in warmer climates, but this does not affect the potency, quality, or efficacy of the product.
