There are nine essential amino acids that must be present in sufficient amounts for the body to grow and repair muscle tissue. It is proven that these proteins are termed "essential" because the body does not produce them and, must get them from dietary sources. Without them, your body's ability to support anabolic activity may be compromised.

Gaspari's Proven EAAs provide 9 grams of the full spectrum of all essential amino acids, including 6 grams of vegan fermented BCAAs in a scientifically supported Leucine heavy ratio of 4:1:1, to maximize muscle growth and recovery. Each serving is loaded with Vegan friendly EAAs in an electrolyte matrix powered by pink Himalayan salt, making Gaspari's Proven EAAs ideal for muscle blasting pre, intra or post workout supplementation.†
