ANIMAL CREATINE

Keep focused on the hard work, knowing you'll be able to recover with Animal Creatine. It's powered by the most readily absorbed creatine monohydrate available. Creatine helps to fuel muscles, serving as a high-energy bond in muscles and nerve tissue to maintain ATP levels during muscular contraction. Clinical research has shown that increased creatine levels in the body also helps to promote optimal workout recovery, increased lean muscle growth, and delayed onset of muscle fatigue.†

IRONCLAD QUALITY & GUARANTEE

Animal is dedicated to being the best in the business, no two ways about it. Made from premium ingredients sourced from around the world, our products are rigorously tested to meet the highest standards of quality. If you purchased this product and it has not met your requirements, let us know. For more information, visit: animalpak.com/customer-service
