

This Pre-Workout is Explosive

Six Star® Pre-Workout Explosion Ripped is the hybrid pre-training fuel you need for explosive workouts and weight loss. Containing advanced pre-workout ingredients including beta-alanine, choline bitartrate and arginine AKG as well as *C. canephora robusta* extract for weight loss. This hybrid formula will help you through your toughest workouts and assist with weight loss.*

*Two separate scientific studies support the key ingredient (*C. canephora robusta*) with an average weight loss of 12.95 lbs. in 60 days with a low-calorie diet in the first study, and 3.7 lbs. in 8 weeks with a calorie-reduced diet and moderate exercise in the second study.*

DIRECTIONS: Read the entire label before use and follow the directions provided. **Directions for Weight Loss:** Mix 1 serving with 6 oz. of cold water and consume 30 minutes before your 2 largest meals. For best results, use for 60 days in combination with a calorie-reduced diet and exercise. **Directions for Pre-Workout:** For more energy, mix 1 to 2 servings with 6 to 12 oz. of cold water and consume 30 minutes before your workout. Assess your tolerance by mixing 1 serving (1 scoop) with 6 oz. of cold water and drinking it about 30 minutes before your workout. Then increase the dosage to 2 servings mixed with 12 oz. of cold water before your workout. Do not exceed 2 servings (2 scoops) in a 24-hour period. Maintain an adequate state of hydration during use.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Consult a medical doctor before use if you have a medical condition or before starting a diet or exercise program. One serving (1 scoop) of this product contains up to as much caffeine as 1.5 cups of coffee. Caffeine-sensitive individuals may experience symptoms including (but not limited to) restlessness, nervousness, tremors, headache, anxiety, palpitations, increased heart rate or difficulty sleeping. Do not combine with other sources of caffeine. Do not use if you have had a myocardial infarction (heart attack). Inhalation may amplify the inflammatory airway response in people with asthma. For use by healthy individuals only. Some individuals may experience a harmless tingling sensation from the concentrated performance dose of beta-alanine. **KEEP OUT OF REACH OF CHILDREN.**
