

What am I?

I'm a probiotic supplement made with organic inulin (a prebiotic). Prebiotics serve as fuel for probiotics - they help the good bacteria thrive in your gut so your probiotics can get to work! I don't need refrigeration because I'm freeze-dried and ready to travel baby! My hobbies include long walks on the beach and making your gut a better place.

How can I help?

I contain some of the most clinically documented probiotic strains in the world. My probiotic blend contains acid resistant strains that support optimal digestive health and peak immune function.†

vegan // gluten-free // dairy-free //
soy-free // sustainably sourced //
non-GMO // no artificial ingredients
