

DIRECTIONS: Take one packet twice daily, or as directed by your healthcare practitioner.

Consult your healthcare practitioner prior to use. Consider total vitamin K intake (food + supplements) if you are taking blood-thinning medication. Present studies show that 45 mcg of MK-7 from Vitamk7™ daily is not likely to interfere with blood-thinning medicines. Do not use if tamper seal is damaged.

OSAplex Vegan™ provides choline-stabilized orthosilicic acid (ch-OSA®) as a primary source of silicon—a mineral associated with bone mineral density and collagen synthesis. MK-7 (active vitamin K2) supports bone metabolism, calcium utilization, and bone integrity. Vitamin D3 (vegan suitable) regulates the metabolism of calcium and phosphorus, minerals required for bone growth and strength. Bonolive® provides olive polyphenols, which are associated with support of bone mineral density and bone maintenance.*
