v31.0D-10000NM148

Directions: Take one capsule per day or as directed by your healthcare practitioner.

Zinc Glycinate Extra Strength* features the 100% fully reacted TRAACS™ zinc bisglycinate chelate by Albion Laboratories, Inc. Zinc is essential for the development and proper functioning of the reproductive organs, including healthy prostate function, and has been shown to support healthy immune system function.* Zinc also supports enzyme activity associated with tissue synthesis, energy metabolism, and bone mineralization.* Zinc Glycinate Extra Strength is readily bioavailable and easily absorbed as an intact chelate.* It is superior to other forms of zinc because it does not get ionized in the gut before it is absorbed.* Instead, it appears to be metabolized in the body right at the target tissue.* Deficiencies in zinc can lead to an impaired immune system, decreased glucose metabolism, hormonal imbalance and slower wound healing.*

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

Caution: Keep out of reach of children.
Storage: Keep tightly closed in a cool, dry place.

This Formula Meets or Exceeds cGMP Quality Standards.
