

ABSOLUTELY NO FILLERS ADDED

Candidase includes two enzymes to help control candida overgrowth. Cellulase breaks down the cell wall of candida, while protease removes the toxins expelled during cell death. This combination cleanses the body of the overgrowth and prevents discomfort common to cleansing (die-off).*

Recommended Usage: For moderate symptoms, take 2 capsules, 3 times a day at least 1 hour before or 2 hours after a meal for 7 days (for maintenance 2 a day). For acute symptoms, continue regimen for a total of 14 days. In extreme cases more time may be given. For best results 1 Virastop may be added each time Candidase is taken.*

Contraindications: Candidase should not be taken with any timed release medications that use cellulose as its time-release mechanism.

Our exclusive Thera-blend™ enzymes are effective throughout the entire digestive system, thereby ensuring complete digestion. When formulated for therapeutic purposes, Thera-blend enzymes are customized for optimal performance throughout the entire body.
