NET WT. 12 OZ (340g)

ANTLER FARMS®

Wild Caught

Antler Farms® Marine Collagen is 100% pure, hydrolyzed collagen sourced from wild caught, cold water fish. Our marine collagen is derived from Pacific Snapper from the deep blue waters of the North Atlantic Ocean. [▲]

Pure & Clean

Using an enzymatic hydrolyzation process, collagen peptides are isolated, purified and concentrated to create a marine collagen that is pure and clean. Antler Farms® Marine Collagen is flavorless and odorless. [▲]

Highly Bioavailable

Antler Farms® Marine Collagen is optimized molecularly to be easily digested. Our collagen is highly bioavailable, rapidly absorbed and perfectly soluble in hot or cold liquids. [▲]
