

PROTOCOL
FOR LIFE BALANCE®

CoQ10

100 mg

- **Cardiovascular Support***
- **Promotes Cellular Energy Production***

90 Softgels

A Dietary Supplement

SUGGESTED USAGE: Take 1 softgel 1 to 2 times daily with food, or as directed by your healthcare practitioner.

HOW IT WORKS: Coenzyme Q₁₀ (CoQ₁₀) is a vitamin-like compound present in almost all cells, where it is necessary for cellular energy production.* CoQ₁₀ concentrations are highest in the heart, where chemical energy availability is critical. CoQ₁₀ also functions as a powerful fat-soluble free radical scavenger within cell membranes and vascular structures.*

CAUTIONS/INTERACTIONS: Coenzyme Q₁₀ may interact with anticoagulant, antihypertensive, and chemotherapy medications. Statin medications have been shown to decrease CoQ₁₀ production in the body and CoQ₁₀ supplementation may be useful when taking these drugs. Consult your healthcare professional if you are taking any of these medications before using this product.

Not manufactured with wheat, gluten, soy, corn, milk, egg, fish or shellfish ingredients. Produced in a GMP facility that processes other ingredients containing these allergens. PEG-free.

Protocol For Life Balance® CoQ₁₀ is a pharmaceutical grade, all-trans form of CoQ₁₀ produced by fermentation.

Separation and color variation in the softgel may occur. This is natural and doesn't affect product quality.
