

SUGGESTED USAGE: Take 1 capsule 1 to 2 times daily with food, or as directed by your healthcare practitioner.

HOW IT WORKS: Curcumin from dried turmeric root is widely used, but is well known for its poor solubility and bioavailability. CurcuFRESH™ is a curcumin preparation from fresh turmeric rhizome that is never dried or extracted using solvents. The resulting curcumin remains in its native complexed form and, when ingested, leads to dramatically higher circulating levels of the beneficial, unmetabolized, free curcuminoids – up to 40x higher than what is expected from standard curcumin extracts.

CAUTIONS/INTERACTIONS: Curcumin may interact with anticoagulant and antiplatelet medications. If you are pregnant/nursing, taking these medications, or have a history of liver, gall bladder or gastrointestinal problems, consult your healthcare practitioner prior to use.
