

SUGGESTED USAGE: Take 1 capsule 1 to 4 times daily with food, or as directed by your healthcare practitioner.

HOW IT WORKS: Curcumin, the active component in turmeric, has been demonstrated to support joint mobility and flexibility.* It is known to be a potent free radical scavenger and supports balanced immune system function responses to normal metabolic stress.* However, due to its limited bioavailability, curcumin typically requires high dosage. Curcumin PC is a unique form of curcumin complexed with phosphatidylcholine that clinically demonstrates curcuminoid absorption that is 29 times higher than a standard curcumin mixture.

CAUTIONS/INTERACTIONS: Curcumin may interact with anticoagulant and antiplatelet medications. If you are pregnant/nursing, taking these medications, or have a history of liver, gall bladder or gastrointestinal problems, consult your healthcare practitioner prior to use.
