

SUGGESTED USAGE: Take 2 softgels twice daily, or as directed by your healthcare practitioner.

HOW IT WORKS: Krill oil is known for its unique fatty acid (FA) profile, which includes EPA and DHA, plus phospholipids. In addition, krill oil naturally has astaxanthin, a powerful free radical scavenger and immune-supporting carotenoid.* Clinical studies have shown that NKO® krill oil can help to support joint comfort, healthy blood lipid levels already within normal range, and may help to maintain healthy feminine balance.* The phospholipid-bound forms of EPA and DHA from krill oil have also demonstrated exceptionally high bioavailability.*

This krill oil is manufactured under strict quality control standards. It is tested to be free of potentially harmful levels of contaminants such as PCBs, dioxins, mercury and other heavy metals.

CAUTIONS/INTERACTIONS: For adults only. Use may be accompanied by mild, but transient GI discomfort. Krill oil may interact with some medications including blood thinners (NSAIDs, warfarin) and statins. Do not take this product if you are allergic to shellfish. Keep out of reach of children.

Natural color variation may occur in this product.
