

ABSOLUTELY NO FILLERS ADDED

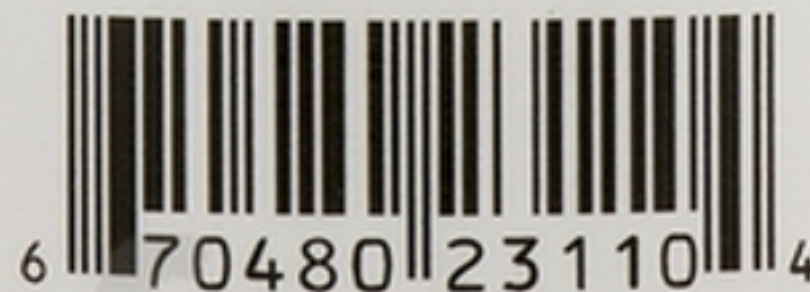

pH-Basic is formulated to assist in balancing the pH of individuals who are either too acidic or too alkaline.* This formula is designed to bypass the acid environment of the stomach, delivering nutrients directly to the small intestine. By optimizing the pH of the small intestine, rather than neutralizing stomach acid, systemic pH balance is achieved.* Urine test strips included. Compare to key below. Optimal pH range is 6.5 to 7.5.*

Recommended Usage: For maintenance: 1-2 capsules before bed with at least 6 oz. of water. For therapeutic effect: 1 in morning, 1 in afternoon, and 2 before bed. Always take 1 hour before or 2 hours after a meal (empty stomach).

Our exclusive *Thera-blend*™ enzymes are effective throughout the entire digestive system, thereby ensuring complete digestion.* When formulated for therapeutic purposes, Thera-blend enzymes are customized for optimal performance throughout the entire body.*
