

0 90800 00003 4

To assure optimal extraction of Prickly Ash's bioactive compounds, the bark is hand-harvested only in the autumn, is carefully shade-dried, and is then thoroughly extracted.

We prepare our Prickly Ash Extract from the bark of *Zanthoxylum clava-herculis* trees which are **Custom Wildcrafted™** in their natural wild habitat.

LIQUID HERBAL EXTRACT

PRICKLY ASH

Zanthoxylum clava-herculis
Autumn-Harvested Bark
